Hotel San Francesco
al Monte Napoli

Art Hotel

EX CONVENTO

History

The Art Hotel San Francesco al Monte was born from the skilful renovation of the sixteenth-century Convent of Santa Lucia al Monte, whose charm it preserves unchanged.

The solemn and discreet building stands at the foot of the green San Martino hill in a dominant position over the Gulf of Naples.

The interiors retain the flavor of the ancient history of the complex, such as the Ancient Oven, which keeps alive the memory of the long nights in which bread was produced tirelessly to feed the poor who took refuge within the sacred walls. Or like the Refectory, with its evocative and intimate atmosphere that seems to make the distant echo of the prayers and readings that accompanied meal time resonate.

Here and there fragments of frescoes, old majolica and decorations emerge, testimony to the artistic heritage of the place.

The cells of the Franciscans now house the 46 rooms of the hotel: all very panoramic and all characterized by a refined and sober elegance that does not betray the original vocation of this place. From the windows you can enjoy the most beautiful panorama of Naples: the gulf in the background with the cone of Vesuvius and the island of Capri.

The roof, from which some panoramic walks lead through the greenery of the hill - cultivated with vegetable gardens and vineyards - is characterized by large hanging gardens and a splendid swimming pool carved into the tuff rock close to the hill.

Chapel of San Giovan Giuseppe

A very intimate and intimate environment. It was the cell of the most important friar of the community, San Giovan Giuseppe Della Croce, now the patron saint of Ischia Ponte, transformed into a votive chapel which gives access to a private room for an event full of symbols. The room also has a private terrace overlooking the Gulf and a wooden ceiling of great visual impact.

Meetings for up to 50 people

The magic of the Roof Garden

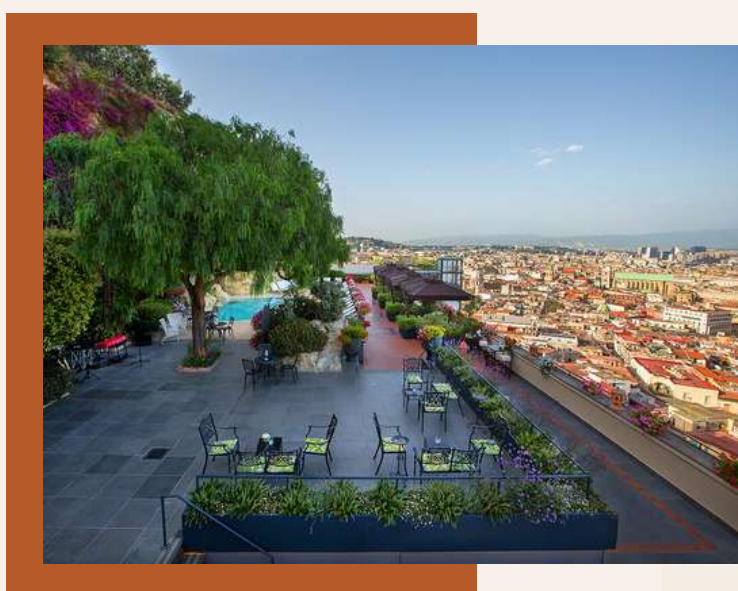

The top floor of the hotel touches the green hill of San Martino, an authentic remnant of countryside in the heart of the city. Here a roof garden has been created that has no equal: the view embraces the city at 360°, the gulf, Vesuvius and Capri on one side, the hill with the Vigna di San Martino on the other with the homonymous Certosa and the Sant'Elmo tuffaceous castle.

Swimming Pool

The terrace offers a hanging garden of rare beauty: the ancient vegetable gardens cultivated by the convent friars with walkways and pergolas have been preserved.

In the most panoramic position, a suggestive swimming pool was created, dug into the tuff rock, almost camouflaged in the greenery and rock.

From the hotel terrace a path leads to the vineyard which offers walks and paths in an uncontaminated landscape: among shoots of Aglianico and Falanghina grapes and fruit trees.

The Hanging Garden

One of the largest green spaces in the city with its over 1000 square meters of garden that can offer breathtaking views from Vesuvius to the island of Capri, from the rolling hills of Capodimonte to the colorful scenery of the streets and ancient buildings of Naples.
